Pursuant to the *Environmental Protection and Enhancement Act*, *Electronics Designation Regulation* and the *Electronics Recycling Bylaw*, environmental fees must be remitted on all sales/supplies of designated eligible electronics in or into Alberta. “Electronics” means all electrical and electronic equipment or devices, whether intended for consumer, industrial or commercial use.

For detailed information on how environmental fees apply to **leased** and **refurbished** items, please refer to the Electronics Environmental Fee Remittance Overview document.

The following table provides definitions and examples of eligible electronics. This is not considered an exhaustive list. Products identified are examples based on Supplier inquiries.

If you require assistance in verifying if a particular electronic product should be charged an environmental fee, please contact ARMA at 1-888-999-8762 or by email at electronics@albertarecycling.ca.

Telecom
Electronic telecommunication devices which are for personal/home use or for business/commercial use.

• A handheld mobile and/or stationary with a handheld/headset communication device that is used to transmit and receive sound (most commonly speech) or data signals.
• A device that is designed to record sound from incoming calls from a telephone line or VoIP (Voice over Internet Protocol) line.
• Accessory handsets/speakers/microphones.

For telecom, a modem is defined as: A device that encodes digital computer signals into analog/analogue telephone signals and vice-versa and allows computers to communicate over a phone line or cable connection.

Items in this category will apply to either of the following sub-categories dependent on the weight of the item:
• Telecom < 2kg IT or Telecom Equipment under 2kg.
• Telecom 2kg, up to 50kg IT or Telecom Equipment 2-50 kg
• Telecom > 50kg, up to 200kg IT or Telecom Equipment greater than 50 kg, up to 200kg

• Cellular devices
• Cellular phones / smart phones
• Combo routers/modems
• Telephones requiring an electrical base station / handset cradle for battery charging and wire-line network connection
• Embedded multimedia terminal adapters (EMTAs) (a combination cable modem and telephone adapter)
• Ethernet switches, networking products (including security appliances and firewalls)
• Flash memory duplicators (for telecom use)
• Routers (for telecom use)
• Satellite phones
• Speakers / convergence phones
• Tape storage systems
Telephone amplifiers
• Telephone line answering machines that utilize cassette-based or digital recording technologies
• Telephone recording devices
• Telephony gateways
• Transmitters for telecom
• USB speakerphones
• Video splitters for telecom
• VoIP home phone services
• VoIP phone adapters
